

All The Troubles Of The World

An angel came to me
Her voice like a symphony
And whispered in my ear all her secrets

She covered me in tears
And I rose in the morning
I dreamt I saw your face
hallelujah!

I'd like to teach the world a song
That makes all your troubles feel like they are gone
I'd take the rain and turn it into sun
So that all your troubles feel like they are gone
They are gone, gone, gone, gone

She put her wings on my shoulder
And took back what she had gave me
The rose that had been burned by her son

She covered me in tears
And I rose in the morning
I dreamt I saw your face
hallelujah!

I'd like to teach the world a song
That makes all your troubles feel like they are gone
I'd take the rain and turn it into sun
So that all your troubles feel like they are gone
They are gone, gone, gone, gone

If there's a smile on your face
And Joy in your heart
All the troubles I know will be gone

If there's a smile on your face
And love in your heart
All the troubles I know will be gone

Am I Human

Hey now,
Can you reach?
I'm a million miles away
So far that I can't even hear me
Its streaming from inside me

Am I human?
Do I really exist?
Am I nothing at all?
Can you just make the call ?

Hey now,
Stay calm and smile
Hide away your hurt for a while
I'm a million miles away
So far that I cant even hear me
Its streaming from inside me
Maybe we don't have a place

Am I human?
Do I really exist?
Am I nothing at all?
Can you just make the call?

Backroads

Oh beautiful,
Her sweet sad eyes
Her amber waves of grain
Majestic purple mountain range
In a jealous sky
Above you and I

Her seductive, river, highway
From sea to shining sea

Backroads
Clean streets
No need to search for
What we need

Will you crown me good?
We need love and brotherhood
The days are short
Do you feel good?

Her amber waves of grain
Majestic purple mountain range
In a jealous sky
Above you and I

Her seductive, river, highway
From sea to shining sea

Backroads
Come with me
No need to search for
What we need

Condemned to Love

Every human being deserves dignity
Some kind of universal ideology
Hoping to be saved by your relativity
Throw me to the sea

Condemned to love

We are salt and light
We are weeping with the souls
Who hurt tonight
Defeat the darkness
Exhale the poison in the air
consume the forces who have
Sworn to hold me back

Condemned to love

There's only one way to take responsibility
Waiting for reaction to the sentence handed down to me
Every human being derives dignity
Throw me to the sea

Condemned to love

We are salt and light
We are weeping with the souls
Who hurt tonight
Defeat the darkness
Exhale the poison in the air
consume the forces who have
Sworn to hold me back

Condemned to love

Fields, Towns and Folks

Fields, towns and folks
It's how the legend goes
Someone settled here to stay
There's a rumor that's a float
I saw you dancing
There's a garden that won't grow
And a woman crying out for mercy

Fields, towns and folks
A million miles from the city
Intense, lamenting, dreams
They're acting crazy
Peaceful, field breeze
The lore of folks before us
Locked in legacy
Brought here in a dream
Leave us here they scream

I am healing
I am healing
Healing
Fields, town and folk
It's how the story goes
Someone settled here to stay
There's a rumor that's a float
I saw you dancing

There's a garden that won't grow
And a child full of hope is crying

Fields, towns and folks
A million miles from the city
Intense, lamenting, dreams
They're acting crazy

Peaceful, field breeze
The lore of folks before us
Locked in legacy
Brought here in a dream
Leave us here they scream

I am healing
I am healing
Healing
My soul is set on fire

I Believe

Some sort of cataclysmic clash
Nothing left but tears and ash
Walk along this fine line
Psychosis
One love

I believe

First things first
A pile of stone
Will fall to Earth
We'll build a wall
To keep out the invaders
Who'll enslave us all
They're 10 feet tall
With bad intention

I believe

Across the sky
A green, blue flash
A final systematic crash
Nothing left but tears and ash
One love

I believe

First things first
A pile of stone
Will fall to Earth
We'll build a wall
To keep out the invaders
Who'll enslave us all
They're 10 feet tall
With bad intention

I believe

Neverland

Here comes winter, here comes the dark
I feel sick, I feel distraught
I heard the news today

Some sort of scare
Like a nuclear blast
We must find a way to love
We must do it fast

So then Mr. Baggins
We need you again
Something about a ring
And suffering
They heard what you said

I might be wandering
But I'm not lost

We'll stay and fight all the villains
No matter how hard that might be
We could climb to Heaven
But then that might not be right
We must somehow
try and stay alive

Neverland is a fraud
It makes you sick
It makes you cough
I hear the news today

Some sort of scare
Like a nuclear blast
We must find a way to love
We must do it fast

So then Mr. Baggins
We need you again
Something about a ring
And suffering
They heard what you said

I might be wandering
But I'm not lost

Night

Walk on by
Just don't look into his
Slowly clouding eyes

What did he say?
What did he do?
They did it right in front of you
Right in front of you

Sad eyed angel
Hang for me
Just for a little while
Until the spirit comes for me
I'll be as still as night

I trade my last piece of bread
To get the images that are stuck
Get them out of my head

What did he say?
What did he do?
They did it right in front of you
Right in front of you

Sad eyed angel
Hang for me
Just for a little while
Until the spirit comes for me
I'll be as still as night

The World Turned Upside Down

Compromised
Settled here
To do

Cockeyed smile
Aimed at you
It's easy to make peace in your mind
It's easy to be glad your alive

It just takes time
It just takes time

Pay close attention to the signs of the time
Conscious dreamer we rise above

Be still
Don't make a sound

The World turned upside down

The World turned upside down

The World turned upside down

The World turned upside down

Worst Day Of My Life

That's just where I am in life
I'm sorry I'm not there
I'm not there

The lights are usually off in this place
Fights break out at night
I hear your doing well and I'm
So glad

You never told me...who trust
You never told me...when to run
You never told me when to fight
I'm falling to my knees
Shaking from the fright

Today I figured out
That I've always felt this way
It's been the worst day of my life
Today I figured out
I need you here with me
It's been the worst day of my life

Walk along the shores of the oceans
Of my despair
Of my despair
Grief and Fear and tragedy
Are the only ones there
It must make you tired to be
So sad

You never told me...who trust
You never told me...when to run
You never told me when to fight
I'm falling to my knees
Shaking from the fright

Today I figured out
That I've always felt this way
It's been the worst day of my life
Today I figured out
I need you here with me
It's been the worst day of my life

I need you here with me
I need you here with me
